IMAGE Production and Animation Evaluation

- *Fill out the following form to evaluate your effort and achievement during this project.*
- *Rate each statement below from 0 to 5*
- *Where 5 is "completely true" and 0 is "not true at all"*

✓ I produced an image **(drawing)** on the NXT screen using the drawing functions in RobotC.

✓ My image had **more than 5 elements** (lines, circles, elements etc.).

✓ My code included **comments** that helps reader see what sections were used to draw each element.

✓ **I showed my final result to Mr. Walzl and at least one other classmate**

✓ The Photo of my NXT screen is with my code, and can be seen clearly.

✓ I produced an **animation** on the NXT screen using the drawing functions in RobotC, **variables, and while loops.**

✓ My image had **more than 1 element that moved**.

✓ My code included **comments** that helped reader see what sections were used to draw each element.

✓ **I showed my final result to Mr. Walzl and at least one other classmate**

✓ The image I handed in with my code can be seen clearly.

✓ I produced an **interactive animation** on the NXT screen using the drawing functions in RobotC.

✓ My interactive animation included if or while statements **that allowed the user to control the animation** in an **interesting and/or entertaining way**

✓ My interactive animation included text that tells user what to do.

✓ My code included **comments** that helps reader see what sections were used to draw each element.

✓ **I showed my final result to Mr. Walzl and at least one other classmate**

✓ The image I handed in with my code can be seen clearly.

A fair grade for me (out of 15)

Core Competencies:

	Needs improvement	Satisfactory	Great
Working with well with others?	I am not open to working with others. I rarely share my work or ask other for help.	I work with others in class. I regularly share my work, ask for help, and help others.	I share my work. I help others and they help me. I am a positive influence when I work with another individual or group. I can think of instances where myself and others have **worked together** to solve a problem.
Creating?	I am learning stuff, but not usually creating anything new. I like to ask for and follow detailed instructions regularly.	I am definitely learning. I am sometimes able to put ideas together create something new or different.	I discover and create new things in my work regularly. My work usually exceeds the expectations of a given assignment or project.
Displaying Work?	People are too busy to see my work. There have been a few projects where people did not see my work	I show my work to my classmates and Mr. Walzl only when instructed to do so.	I'm proud of my work and display it in a way that people understand. I always make sure to show my projects to classmates and Mr. Walzl. I sometimes show my work to people outside of class
Solving Problems	When I get stuck…I get discouraged and my progress slows down.	When I get stuck I actively look for new options and solutions. I make a plan to move forward.	When I get stuck examine all options, make a plan and follow through until the problem is solved. I am able to work with others effectively and positively while solving problems

A fair grade for me (out of 20)
